WHAT IS SEAMO ALL ABOUT ?

The Southeast Asian Mathematical Olympiad is a unique assessment platform that has helped more than 50,000 students across 15 countries achieve Global Recognition in the field of mathematics since 2016.

"Preparing for a top international contest like SEAMO has helped my child improve his problem-solving ability. His school grades improved and he is also well-prepared for Entrance Tests to top institutions."

- Neetu Singhania, Mother of Parth Singhania
(Podar International School, Mumbai, India)

- Formulated based on the Ministry of Education of Singapore's 21st Century Core Competencies
- Places strong emphasis on creative and inventive thinking as opposed to technical maths skills.
- Compete against the brightest minds from 18 countries.
- Accredited SEAMO winners have secured seats in top international schools.
- Gain global perspective by interacting with top mathematicians from other countries.
- SEAMO winners have received scholarship from top MNCs.
- SEAMO winners will qualify for a chance to represent their country in the Global Round of the competition (SEAMO X).

POPULAR AROUND THE WORLD

03

SEAMO Has Seen Rapid Growth Over The Past 3 Years

Originated in Singapore, SEAMO's curriculum framework and testing methods falls in line with MOE's 21st Century Core Competencies. SEAMO's emphasis on Critical Thinking skills encourages students to make connections between different concepts and think out of the box in order to be successful in school and in the workplace. With this vision in mind, SEAMO has gained popularity among schools and parents to become the most highly acclaimed Maths Olympiad competition in the region. SEAMO will be conducted in 18 countries by 2019.

2016

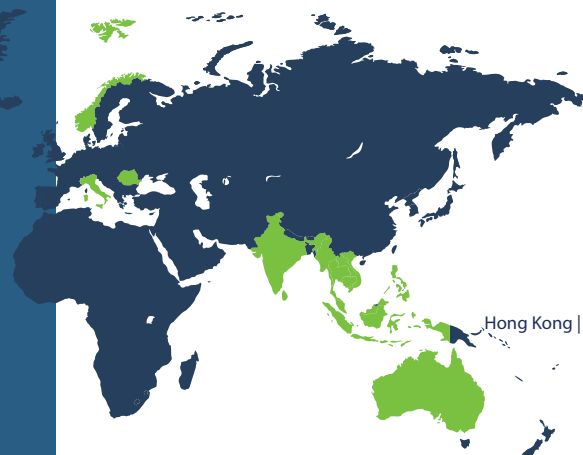

7,000 participants
across 5 countries

Singapore | Malaysia | Indonesia | Thailand | Philippines

2017

12,000 participants
with 5 new countries

India | Romania | Sri Lanka | Italy | Norway

2018

25,000 participants
with 5 new countries

Hong Kong | Myanmar | Vietnam | USA | Australia

2019

SEAMO comes
to 3 new countries and more...

Cambodia | Laos | Brazil

05

DESCRIPTION OF RACE FRAMEWORK

Step 1: Build students' competence and confidence via a personalised roadmap.

Step 2: Groom students to face increasingly tricky and complex cross-topic and unseen problems to develop Critical Thinking in their Mathematical Problem-Solving skills.

Step 3: Equip students with 28 problem-solving strategies and tools that enable them to solve problem sums faster and more accurately.

- 1 Registration should be done by the Teacher-In-Charge (TIC) ONLY. 
- 2 Candidates should submit the Registration Form to the TIC along with payment. 
- 3 TIC should follow the steps to register candidates <https://seamo-official.org/guidelines/schools> 
- 4 Once registered, Candidates will receive confirmation via email. 
- 5 Make payment to Secretariat. 
- 6 One week before the competition, an Exam Package will be sent to your school. 
- 7 Schools will conduct the competition at their own venue. 
- 8 Submit Answer Scripts to Secretariat via courier. 
- 9 Results will be announced on 26 Oct 2019 at <https://seamo-official.org/results> 
- 10 Awards will be delivered to your school by 8 Dec 2019. 

CATEGORIES

06

1

PAPER A
Lower Primary | Class I & II

2

PAPER B
Middle Primary | Class III & IV

3

PAPER C
Upper Primary | Class V & VI

4

PAPER D
Junior | Class VII & VIII

5

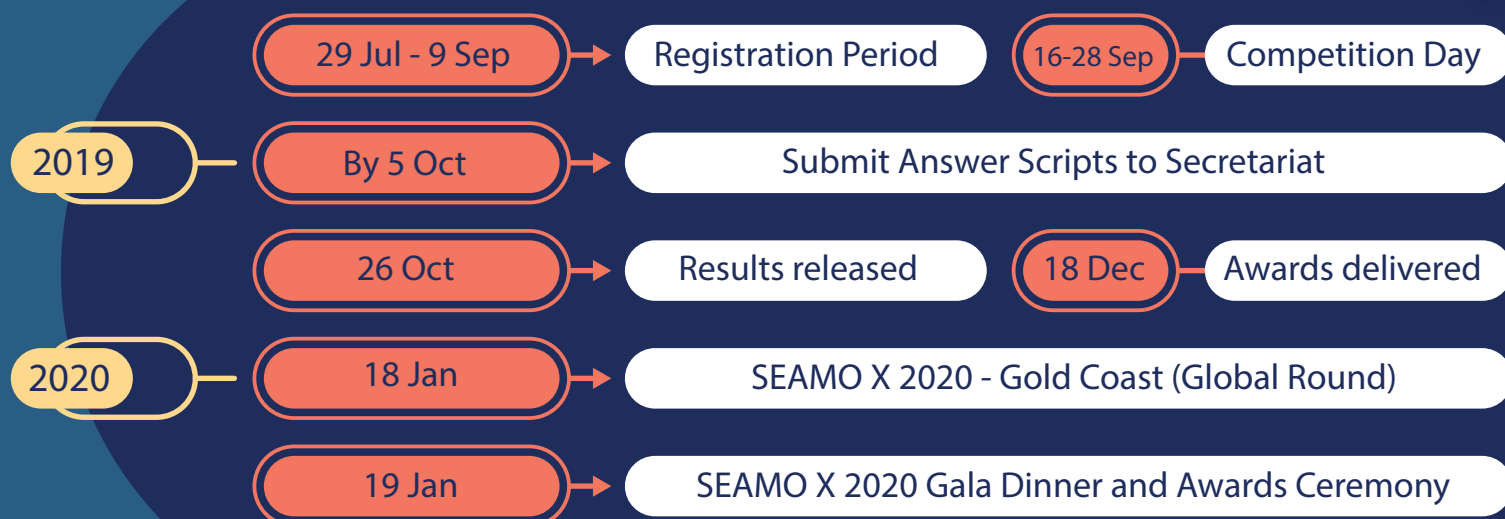

PAPER E
Intermediate | Class IX & X

6

PAPER F
Senior | Class XI & XII
